Title:Terahertz Imaging Eyes Defects in Tablets

Authors:Portieri, A.

Source title:Vision Systems Design

Abbreviated source title:Vis. Syst. Des. (USA)

Volume:17

Issue:4

Publication date:1 April 2012

Pages:7 pp.

Language:English

ISSN:1089-3709

CODEN:VSDIAO

Document type:Journal article (JA)

Publisher:PennWell Corp.

Country of publication:USA

Material Identity Number:CL47-2012-004

Abstract:The paper mentions that terahertz imaging systems are helping pharmaceutical manufacturers reveal defects in their products.

Number of references:0

Inspec controlled terms:drugs - image processing - pharmaceutical industry - production engineering computing - quality control

Uncontrolled terms:terahertz imaging system - pharmaceutical manufacturer - product defect - tablets

Inspec classification codes:B0170L Inspection and quality control - B6135 Optical, image and video signal processing - C7480 Production engineering computing - C5260B Computer vision and image processing techniques - E3626A Pharmaceutical industry - E0410D Industrial applications of IT - E1610 Inspection and quality control - E1780 Products and commodities

Treatment:Practical (PRA)

Discipline:Electrical/Electronic engineering (B); Computers/Control engineering (C); Manufacturing and production engineering (E)

Database:Inspec
