Abstract:The effect of multiphoton and tunnel ionization on the generation of terahertz radiation for optical breakdown in the focus of femtosecond bichromatic laser pulses is discussed. &copy; 2012 Optical Society of America.

Number of references:39

Main heading:Electromagnetic wave emission

Controlled terms:Ionization - Terahertz waves

Uncontrolled terms:Bichromatic laser pulse - Femtoseconds - Multiphotons - Optical breakdown - Terahertz radiation - Tunnel ionization

Classification code:711 Electromagnetic Waves - 802.2 Chemical Reactions

DOI:10.1364/JOSAB.29.001911
